PROFESSIONAL EXPERIENCE

Backend Developer Intern, MultiQoS

Jul 2026 - Aug 2026

- Built core Kuri backend workflows for reassignment, recurring courier, and marketplace operations using NestJS, Microservices, Kafka, and PostgreSQL.
- Dockerized 8–9 microservices for Grimmor and resolved CI/CD pipeline issues across quality checks, type/dependency advisory checks, builds, and production deployment, enabling automated deployments on code push.
- Implemented MyMarket's end-to-end Zerodha market-data flow, integrating APIs, decoding binary market data into readable structures, mapping real-time ticks to application requirements, and handling the flow from login through live market updates.

Web Developer Intern, Innovate MR

Jan 2026 - June 2026

- Built full-stack web applications using the MEAN stack, developing RESTful APIs with Node.js/Express and responsive Angular components using modern CSS practices.
- Participated in daily standups, sprint planning, and 15+ code reviews; implemented feedback to improve code quality
- Debugged 8+ production issues reported by QA team in collaboration with senior developers

Programming Intern , Peersale Company Inc.

07/2024 - 09/2024, Greensboro, NC

- Designed 40+ test cases covering API behavior, validations, and edge cases for 6 application modules
- Collaborated with backend developers to understand RESTful API design and database query optimization
- Communicated technical findings clearly and proposed 5 optimization recommendations

PROJECT

AI Analytics Cricket Score Management System

[Github](#)

- Built a MERN-based cricket management system with live match updates, team/tournament management, and REST API integration.
- Developed an AI-based analytics dashboard for performance trends and match outcome prediction across 50+ player profiles; implemented JWT authentication and role-based access control.

Amenity Booking System (MEAN stack)

[Github](#)

- Developed a MEAN-based facility reservation platform supporting 200+ concurrent users with real-time booking and management.
- Designed MongoDB schemas and REST APIs with conflict resolution, JWT authentication, validation, and asynchronous database operations; achieved 85% Jest test coverage.

EDUCATION

Bachelor of Technology in Computer Engineering

2022 - 2026

- Indus University – Ahmedabad, India | 9.34 CGPA

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, HTML5, CSS3, C, Java
- Frameworks: React.js, Angular.js, Node.js, Express.js, NestJS, Spring
- Databases & APIs: MongoDB, PostgreSQL, REST APIs, SQL
- DevOps & Tools: Docker, Kafka, CI/CD, Git/GitHub, Postman, Vercel, Render
- Other: Redux, Context API, JWT, Jest, Material UI, Bootstrap

CERTIFICATIONS

- Oracle Cloud Infrastructure 2024 Generative AI Professional
- Oracle Certified Expert, Java EE 6 Web Component Developer
- Oracle Certified Professional, Java SE 6 Programmer
